About Bio Spectrum Seeds

Welcome to Bio Spectrum Seeds, a high-quality vegetable seeds and technology provider which born after 18 + years of study in the Indian and International markets on vegetables, Herbs, and flower seeds

We provide quality seeds and technical solutions to needy Growers.

Aim to focus exact needs of Indian growers and work to solve the difficulties of the growers in high-end vegetable growing.

Bio Spectrum Seeds is working in the Indian market with main objective is to provide the best quality seeds, enable Growers to grow more and more Vegetables, Herbs, and Flowers and make them skilled in growing quality vegetables.

We continuously invent new vegetable crops and varieties that will provide healthy nutrition and future food for all ages. With the Motto

"Grow your own food, we will help!"

We aim to Attract, Develop and promote the new younger generations in high-tech agriculture, skill them, train them in high-tech growing, and pass knowledge on how to grow, techniques and an entire package of practice for the cultivation of healthy, hygienic, chemical-free vegetables.

We Innovate new future vegetables that will add benefits to our regular diet to the ever-increasing population. We have to Create a Healthy salads and vegetable network to form a nutritious diet chain, from "farm to plate" with better quality seeds.

LETTUCES *(Lactuca Sativa)*

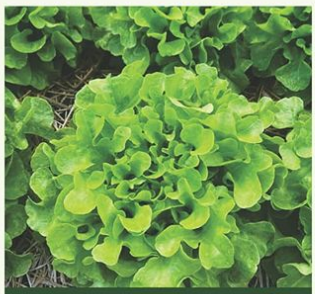

Different Types Suitable for Soil & Soilless Cultivation

(Seed Count - 800 Seeds Per Gram)
